TO WHOM IT MAY CONCERN

This is to certify that **Mr RISHIT SUMAN** successfully completed an internship with **Tech Mahindra Ltd.** as a **DevOps Engineer Intern** from **02 January, 2025** to **30 April, 2025**.

During the internship, **Suman** demonstrated a strong understanding of DevOps principles and tools, contributing effectively to the organization's objectives. His responsibilities included:

- Assisting in setting up and maintaining CI/CD pipelines to streamline build and deployment processes.
- Automating cloud infrastructure provisioning and management using tools like **[AWS/Azure/GCP, Docker, Kubernetes, Terraform, etc.]**.
- Monitoring and analyzing system performance to identify and resolve issues proactively, ensuring optimal uptime and reliability.
- Collaborating with developers and operations teams to improve software delivery processes and align workflows with organizational goals.
- Learning and applying scripting languages to automate repetitive tasks and optimize system efficiency.

Throughout the internship, **Suman** exhibited excellent problem-solving skills, adaptability, and a proactive attitude toward learning. His contributions were highly appreciated by the team, and he quickly became a valuable member of the organization.

We thank **Suman** for his contributions and wish him success in all future endeavors.

For Tech Mahindra Limited,

Rahul verma
Manager - HRM
