IV Year,
Computer Science and Engineering

ACKNOWLEDGEMENT

The full semester internship has proved to be pivotal to my career. I am thankful to my institute, **Madhav Institute of Technology and Science** to allow me to continue my disciplinary/interdisciplinary internship as a curriculum requirement, under the provisions of the Flexible Curriculum Scheme (based on the AICTE Model Curriculum 2018), approved by the Academic Council of the institute. I extend my gratitude to the Director of the institute, **Dr. R. K. Pandit** and Dean Academics, **Dr. Manjaree Pandit** for this.

I would sincerely like to thank my department, **Department of Computer Science and Engineering**, for allowing me to explore this internship. I humbly thank **Dr. Manish Dixit**, Professor and Head, Department of Computer Science and Engineering, for his continued support during the course of this engagement, which eased the process and formalities involved.

I am sincerely thankful to my faculty mentors and industry mentors. I am grateful to the guidance of **Dr. Manish Dixit**, Professor and Head, Department of Computer Science and Engineering, and **Mr. Naresh Dusi**, Software Development Manager, Amazon for their continued support and close mentoring throughout the internship. I am also very thankful to the faculty and staff of the department of Computer Science and Engineering.

IV Year,

Computer Science and Engineering

ABSTRACT

One of the many benefits sellers in the 28 European Union States get by selling on Amazon is free-of-charge automated invoice service, also known as VCS or VAT Calculation Services. VCS also allows sellers to upload their own invoices. This flexibility comes with great responsibility. We perform several checks on the invoice document, from virus checks to content validation, so that the buyers receive the right invoices with their orders, leading to better customer experience for both the buyer and the seller at Amazon.

This internship focused on tasks related to VCS Services such as invoice validation and invoice upload user experience. This report describes some of the major technologies worked on, the software development life cycle model followed, and major deliverables so far.

सारः

28 यूरोपीय संघ राज्यों में विक्रेताओं को ऐमेज़ॉन पर बेचने से मिलने वाले कई लाभों में से एक निःशुल्क स्वचालित चालान सेवा है, जिसे VCS या VAT Calculation Services के रूप में भी जाना जाता है। VCS विक्रेताओं को अपने स्वयं के चालान अपलोड करने की भी अनुमति देता है। यह सुविधा बड़ी जिम्मेदारी के साथ आती है। हम इनवॉइस दस्तावेज़ पर वायरस की जाँच से लेकर सामग्री सत्यापन तक कई जाँच करते हैं, ताकि खरीदारों को उनके ऑर्डर के साथ सही चालान मिले, जिससे ऐमेज़ॉन पर खरीदार और विक्रेता दोनों के लिए बेहतर ग्राहक अनुभव प्राप्त हो सके।

यह इंटर्नशिप VCS सेवाओं से संबंधित कार्यों जैसे चालान सत्यापन और चालान अपलोड उपयोगकर्ता अनुभव पर केंद्रित है। इस रिपोर्ट में कुछ प्रमुख तकनीकों, सॉफ्टवेयर विकास जीवन चक्र मॉडल, और अब तक के प्रमुख डिलिवरेबल्स का वर्णन किया गया है।

Chapter 1: INTERNSHIP OVERVIEW

1.1 Introduction

This internship is a Software Development Engineering Internship based in the Amazon Hyderabad office. The area of work is International Seller Services. Within this team, our work focuses on the 28 European Union (EU) states, and helps sellers across Europe to get a great customer experience while selling on Amazon.

1.1.1 Amazon Seller Central

A person's Seller Central account is accessible once they register as an Amazon seller. When it comes to selling on Amazon, Seller Central is the place to go. It is a one-stop shop for managing a seller's Amazon business, including entering product information, updating inventory, managing payments, and finding helpful content to assist them navigate their Amazon business. It is also where all of their products are listed.

Some of the things a seller can perform using Seller Central are listed below.

- The Inventory tab allows users to keep track of inventory and update their listings.
- Download and save custom business reports and templates that they use frequently.
- Customer metrics tools could be used to keep track of a seller's performance.
- Contact Selling Partner Support and open help tickets using the Case Log
- Keep track of their Amazon sales on a daily basis for all of the things they sell.

1.1.2 VAT Calculation Services (VCS)

Amazon's VAT Calculation Services (or VCS) is a free-of-charge automated invoicing service that performs VAT calculations for the 28 European Union member states, based on seller-determined tax calculation settings. We generate invoices on behalf of sellers.

We also allow sellers to upload their own invoices.

1.2 Objectives and Scope

The goal of this six-month internship was to give students an experience of what it is like to work at Amazon. The work I did during this internship had a significant impact, since I was able to dive into products, programmes, and services that affect millions of people. The internship began with a thorough onboarding process that allowed me to work with and learn from the manager, mentor, and team, as well as work on projects that affect a significant number of customers on a daily basis. It also qualifies me for a full-time position as a Software Development Engineer at Amazon based on my performance and deliverables.

Chapter 2: PROBLEM STATEMENT

The VCS allows sellers to upload their own invoices. This flexibility comes with great responsibility. We have to check whether the seller has uploaded an invoice in the right format (PDF format) within the required time. We also have to perform several checks on the invoice document, such as virus scans.

- So far, we have been able to solve the problem of sellers not providing invoices.
- However, invoices uploaded by the sellers in the form of PDF can be defective in one or other ways.
- The actual content of the PDF must be verified in order to ensure the seller is not uploading anything invalid.
- Some sellers are uploading invoices that are missing some information.
- Some sellers are uploading documents that are not invoices.
- Several others are uploading documents in a language that is not supported by our system.
- Some sellers are even uploading blank documents.

Chapter 3: FINAL ANALYSIS AND DESIGN

3.1 List of Deliverables and Results

My tasks in the internship included the following deliverables:

3.1.1 POC on Using AWS Textract with Augment AI

- One of the requirements in later stages of the Invoice Validation Project is to develop an audit tool that allows human review of invoices, and the results given by AWS Machine Learning APIs after working on these invoices.
- The results of this POC were helpful in identifying some of the benefits as well as limitations of this approach for our use case, and points to work on.

3.1.2 POC On Using AWS Machine Learning APIs for Deep Validation of Invoices

- This POC was required to identify potential issues that we may face while using the particular AWS APIs.
- The results of this POC were helpful in identifying some of the limitations, which helped the team to find workarounds and solve the issues.

3.1.3 Implementation of Blank Document Detection and Language Detection steps in the Deep Validation of Invoices

- Implemented blank document detection and language detection steps in Java/.
- Wrote unit tests for the steps.
- Performed thorough testing on Beta and Gamma stages.
- The project was successfully launched in production.

3.1.4 Fixing UI Bugs in the System

Fixed two important UI bugs in the existing system which were directly impacting customers, and deployed the fix in production.

3.2 Problems Faced

- The technology stack used was new to me, so it took some time for me to learn and get familiar with it. However, Amazon's internal resources were helpful in catching up with it.
- Initially I required some help from teammates to tackle roadblocks, but I gradually started doing my tasks more independently, and learned to ask for help at the right time.

3.3 Outcomes

The first stage of the project has been successfully launched in production in shadow mode. The POCs have been helpful in achieving this. The UI bug fix is also live in production.

APPENDIX

1. Fortnightly Progress Report - 1

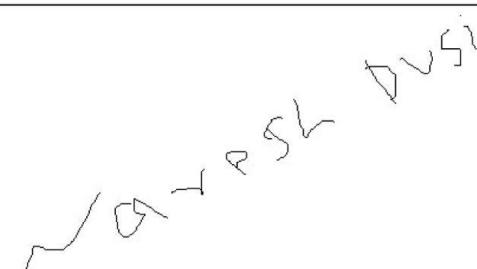

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	24/01/22-15/02/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work					Excellent
Learning capacity/Knowledge upgradation					Excellent
Performance/Quality of work					Excellent
Behaviour/Discipline/Team work					Excellent
Sincerity/Hardwork					Excellent
Comment on nature of work done/Area/Topic	Currently Akshada on her ramp up plan. Overall she is picking up well. There are few tasks been assigned and she did well.				
OVERALL GRADE (Anyone)	EXCELLENT				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor		Sign	
----------------	--	------------------------	--	------	--

2. Fortnightly Progress Report - 2

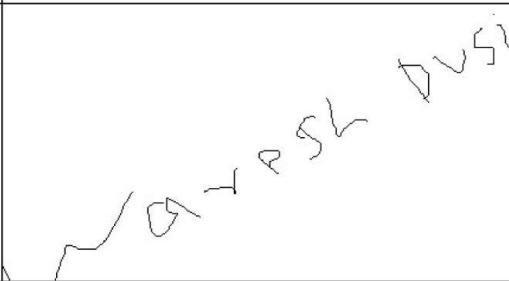

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	16/02/22-28/02/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work					Excellent
Learning capacity/Knowledge upgradation					Excellent
Performance/Quality of work					Excellent
Behaviour/Discipline/Team work					Excellent
Sincerity/Hard work					Excellent
Comment on nature of work done/Area/Topic	Akshada been assigned on some new work for AWS Augmented API workflow understanding and doing proof of concept. Initially learning and finding she did overall well.				
OVERALL GRADE (Anyone)	EXCELLENT				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor or		Sign	
----------------	--	---------------------------	--	------	--

3. Fortnightly Progress Report - 3

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	01/03/22-15/03/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work					Excellent
Learning capacity/Knowledge upgradation				Very Good	
Performance/Quality of work					Excellent
Behavior/Discipline/Team work					Excellent
Sincerity/Hardwork					Excellent
Comment on nature of work done/Area/Topic	Akshada have finished her task on doing POC on Augmented AI UI task. Task needed to do a POC on different APIs and Tools for providing human review workflow for validation ML model of AWS APIs. She produced document of learning. She did well on this. Now She is working on some API integration of detecting Language. Overall She is doing great.				
OVERALL GRADE (Anyone)	EXCELLENT				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor or		Sign	
----------------	--	---------------------------	--	------	--

4. Fortnightly Progress Report - 4

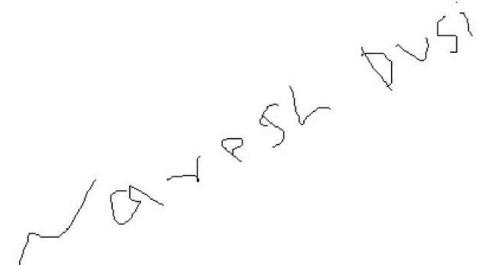

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	16/03/22-31/03/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work					Excellent
Learning capacity/Knowledge upgradation			Good		
Performance/Quality of work			Good		Excellent
Behavior/Discipline/Team work					Excellent
Sincerity/Hardwork					Excellent
Comment on nature of work done/Area/Topic	Akshada is now moved to more Deliverable tasks for writing Lambda step function related to Invoice accuracy project. She is putting great effort to pickup related tools and framework. And now we are close to delivery so good job Observation: She needs to manage things little more independently now. She is currently require hand holding and follow-up on deliverable and closing things.				
OVERALL GRADE (Anyone)	Good				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor		Sign	
----------------	--	------------------------	--	------	--

5. Fortnightly Progress Report - 5

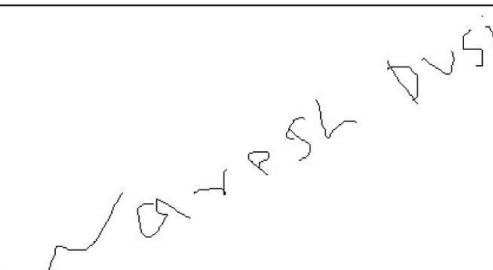

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	01/04/22-15/04/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work					Excellent
Learning capacity/Knowledge upgradation				Very good	
Performance/Quality of work				Very Good.	
Behavior/Discipline/Team work					Excellent
Sincerity/Hard work					Excellent
Comment on nature of work done/Area/Topic	Akshada code for new lambda step function with Language detection integration is about to live this week. She has improved after initial feedback on learning and doing task more independently. Learned on many best practices and their implementation Next few weeks now she will be working on TaxDocumentStore service creation and flows again a critical service to own and deliver.				
OVERALL GRADE (Any one)	Very Good.				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor		Sign	
-----------------------	--	-------------------------------	--	-------------	--

6. Fortnightly Progress Report - 6

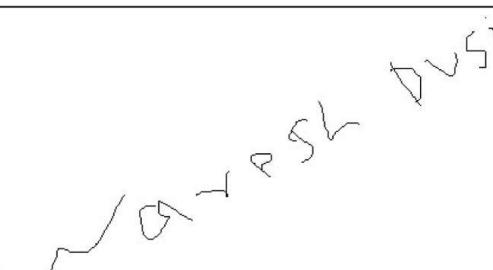

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	16/04/22-30/04/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work				Very Good	
Learning capacity/Knowledge upgradation					Excellent
Performance/Quality of work			.		Excellent
Behavior/Discipline/Team work					Excellent
Sincerity/Hard work					Excellent
Comment on nature of work done/Area/Topic	Akshada have worked hard for one of Go live project for IDR V2.0 Project. Her contribution was significant and created customer impact. She got overall very positive feedback from all stakeholders.				
OVERALL GRADE (Any one)	Very Good.				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor		Sign
----------------	--	------------------------	--	------

7. Fortnightly Progress Report - 7

FORTNIGHTLY PROGRESS REPORT(FPR) FROM INDUSTRY MENTOR

Name of student	Akshada Wakankar		Department	Computer Science & Engineering	
Industry/Organization	Amazon		Date/Duration	01/05/22-15/05/22	
Criterion	Poor	Average	Good	Very Good	Excellent
Punctuality/Timely completion of assigned work				Very Good	
Learning capacity/Knowledge upgradation					Excellent
Performance/Quality of work				.	Excellent
Behavior/Discipline/Team work					Excellent
Sincerity/Hard work					Excellent
Comment on nature of work done/Area/Topic	She now focused on some of UI improvements which were directly impacting customers. This require different skills on UI side. She did well by reaching sr member and understanding fixes. Her this code also now in production,				
OVERALL GRADE (Any one)	Very Good.				
Name of Industry Mentor	Naresh Dusi				
Signature of Industry Mentor					

Receiving Date		Name of Faculty Mentor		Sign
