ABSTRACT

The intention behind making this project through Google Sheets was to explore various features of it and creating various collections of data so that we can learn about Google Sheets as a software more deeply.

Project was created under IT Workshop Lab where various online Google Softwares such as Google Sheets, Google Slides, Google Docs etc. were taught.

TABLE OF CONTENTS

Chapter 1: INTRODUCTION

1.1 What is Google Sheets

Google Sheets is a spreadsheet program included as part of the free, web-based Google Docs Editors suite offered by Google. The service also includes: Google Docs, Google Slides, Google Drawings, Google Forms, Google Sites and Google Keep. Google Sheets is available as a web application, mobile app for: Android, iOS, Microsoft Windows, BlackBerry OS and as a desktop application on Google's ChromeOS. The app is compatible with Microsoft Excel file formats.[2] The app allows users to create and edit files online while collaborating with other users in real-time. Edits are tracked by a user with a revision history presenting changes. An editor's position is highlighted with an editor-specific color and cursor and a permissions system regulates what users can do

Chapter 2: PROJECT

We as a team of 7 created some random marksheets through Google Sheets as directed in our Skill Based Mini Project

Chapter 3: RESULT AND CONCLUSION

In terms of Result, seven distinguished marksheets were created using Google Sheets and hence we learnt about the tools and function of it such as Tables, Row, Cells and Columns etc.
It was concluded that we could create file for statistical data calculation and many more methods through Google Sheets. Also several of its features are beneficial in offices and have been widely used worldwide
