DECLARATION

I hereby declare that the work being presented in this project report, for the partial fulfilment of requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering at Madhav Institute of Technology & Science, Gwalior is an authenticated and original record of my work under the mentorship **Mahesh Parmar, Assistant Professor, Computer Science and Engineering.**

I declare that I have not submitted the matter embodied in this report for the award of any degree or diploma anywhere else.

MADHAV INSTITUTE OF TECHNOLOGY & SCIENCE, GWALIOR

(A Govt. Aided UGC Autonomous & NAAC Accredited Institute Affiliated to RGPV, Bhopal)

ACKNOWLEDGEMENT

The full semester project has proved to be pivotal to my career. I am thankful to my institute, **Madhav Institute of Technology and Science** to allow me to continue my disciplinary/interdisciplinary project as a curriculum requirement, under the provisions of the Flexible Curriculum Scheme (based on the AICTE Model Curriculum 2018), approved by the Academic Council of the institute. I extend my gratitude to the Director of the institute, **Dr. R. K. Pandit** and Dean Academics, **Dr. Manjaree Pandit** for this.

I would sincerely like to thank my department, **Department of Computer Science and Engineering**, for **allowing** me to explore this project. I humbly thank **Dr. Manish Dixit**, Professor and Head, Department of Computer Science and Engineering, for his continued support during the course of this engagement, which eased the process and formalities involved.

I am sincerely thankful to my faculty mentors. I am grateful to the guidance of **Mahesh Parmar**, Assistant Professor, Computer Science and Engineering, for his continued support and guidance throughout the project. I am also very thankful to the faculty and staff of the department.

Soumya Sethi

ABSTRACT

The goal of this project is to design a **web personal portfolio** for a college student and to report on the process. This report outlines the development of portfolio using HTML5 and CSS3. A web portfolio is an online collection of your best web dev projects that accurately represent your skills, your abilities, and the quality of your work. It acts as a curated collection of your proudest professional web development examples you can show potential employers or clients to get yourself hired. Having a web developer portfolio website is essential to showcase your quality and versatility. Well-designed portfolio websites can also attract prospective employers and clients.

This Portfolio contains different section like Home, About, Hobbies, Skills, Projects and a Contact me page. Each section has a unique style.

Personal Portfolio, Web Development, Frontend Development, HTML5, CSS3, JavaScript.

Chapter 1: INTRODUCTION

1.1 INTRODUCTION

A web developer portfolio is an online collection of your best web dev projects that accurately represent your skills, your abilities, and the quality of your work. It acts as a curated collection of your proudest professional web development examples you can show potential employers or clients to get yourself hired.

When getting hired as a web developer, a portfolio of your best past projects is often a requirement. A resume has its time and place, but a portfolio is where you show (not tell) what you're really capable of doing. Even when it's not a requirement, a web development portfolio site can help you stand out. It demonstrates your commitment and dedication to showcasing your work. It's also an opportunity for you to represent your work in the best light possible and show your personality.

This work aims to report the process of designing and developing a web portfolio for a graduating bachelor design student specializing in web design and development. It will define what a portfolio website is, it will also explain the software and hardware essentials to get a development environment and contains HTML, CSS and JavaScript code for each section along with demonstration.

Chapter 2: TOOLS

2.1 HARDWARE ESSENTIALS

- Processor: Minimum 1 GHz; Recommended 2GHz or more.
- Ethernet connection (LAN) OR a wireless adapter (Wi-Fi)
- Hard Drive: Minimum 32 GB; Recommended 64 GB or more.
- Memory (RAM): Minimum 1 GB; Recommended 4 GB or above

2.2 SOFTWARE ESSENTIALS

- Any Web Browser (eg: Chrome)
- Operating System: Windows or MacOS or Linux
- Visual Studio Code

Chapter 3: IMPLEMENTATION DETAILS

3.1 HTML

HTML is the acronym for Hypertext Markup Language which is the standard markup language for the designed documents that are to be displayed in the web browser, aided by a scripting language like JavaScript and some technologies like Cascading Style Sheets (CSS).

3.2 CSS

CSS is an acronym for Cascading Style Sheets which is a style sheet language used for demonstrating the presentation of a document that is written in a markup language such as HTML. Designed of CSS is done to separate the content and presentation, including colours, layouts, and fonts.

3.3 JavaScript

JavaScript is a scripting language that enables you to create dynamically updating content, control multimedia, animate images, and pretty much everything else. JavaScript can update and change both HTML and CSS. JavaScript can calculate, manipulate and validate data.

Chapter 4: WEBSITE DEMONSTRATION

4.1 HOME PAGE

Figure 1: Home Page

The above picture is the home page of the website from which one can interact. This page welcomes the viewer to the website and provides direct link to different sections of the website. It also contains a resume button which downloads resume when clicked.

4.2 ABOUT ME

Figure 2: About Me Page

This is the “About Me” Section of the website which gives details of the student.

Here, links to social media platforms of the student is also given.

4.3 SKILLS

Figure 3: Skills

Above is the skills section of the website. This page contains a slider containing different type of skills of the student.

4.4 PROJECTS

Figure 4: Projects

Here is another slider that contains projects of the student along with link.

4.5 HOBBIES

Figure 5: Hobbies

This is the hobbies section. It shows hobbies of the student in the form of cards. The background of these cards turns black whenever user hovers on them.

4.6 CONTACT FORM

The contact form is titled "Contact Me" in a large, bold, black font. Below the title is a subtitle: "You can contact me through the number and email given below. Feel free to write any query you have." The form is divided into two columns. The left column features a smartphone icon, the text "Call Me On", and the phone number "+912 234 4302". The right column features an envelope icon, the text "Email Me On", and the email address "soumyasethi197@gmail.com". Below these columns are three input fields: "Your Name", "Your Email", and "Your Subject". A large text area for "Your Message" is positioned below the "Your Subject" field. A blue "SEND MESSAGE" button is located at the bottom center of the form.

Figure 6. Contact form

The above picture views the contact me form from which viewer can contact student. This page also provides information like Number and Email.

4.7 FOOTER

Figure 7. Footer

This is the end of our Responsive Personal Portfolio Web page.

5.3 JavaScript Code

```
$(document).ready(function(){
    $('.slider').slick({
        arrows:false,
        dots:true,
        appendDots:'.slider-dots',
        dotsClass: 'dots',
    });

    let hamberger = document.querySelector('.hamberger');
    let times = document.querySelector('.times');
    let mobileNav = document.querySelector('.mobile-nav');

    hamberger.addEventListener('click', function(){
        mobileNav.classList.add('open');
    });

    times.addEventListener('click', function(){
        mobileNav.classList.remove('open');
    });

});
```

Chapter 6: CONCLUSION

6.1 CONCLUSION

After successfully completing the major project, a simple conclusion can be drawn that a “Personal Portfolio Website” is an important project in list of a web designer student. Building this portfolio helped me to sharpen my Frontend development basics more. This portfolio showcases my strengths and projects and is a better version of a traditional portfolio. Through my 4 years of study, I can keep on updating this portfolio and add multiple projects in it and showcase my skills.

6.2 BENEFITS

Online portfolios aren't just for certain fields or industries anymore. The importance of having a professional online presence is more important than ever, and an online portfolio will certainly increase your visibility and presence. Creating your portfolio website allows you to share and showcase your work easily with the employers you'd like to work for. If an employer sees your website link in your signature or on your resume, they'll likely click on it to see what you've built. Seeing you've taken the time to build a website featuring work samples, recommendations, previous presentations and more will be a killer first impression. Because of the flexibility of an online portfolio, you're able to show your personality by choosing design, layout and the copy you write. With the click of a button, you can change content, videos, copy and pictures on your online portfolio. You can also constantly create new content to add to your site to show your continuous learning process.
